## It's so easy to order from KERN:

 **Tel. +49 7433 9933-0**

 **E-Mail**  
**info@kern-sohn.com**

 **Online Shop**  
**www.kern-sohn.com**

**We look forward to meeting you  
in our online shop – simply use the  
QR Code:**

## Your Advantages – our Philosophy. All KERN Advantages at a Glance

### Online Shop

**www.kern-sohn.com**

For convenient ordering you will find a huge selection of products and services in our KERN online shop, 24/7.

### Advice from the experts

Our KERN experts will offer you individual advice in a range of languages and will be pleased to assist you:  
Mon - Fri from 8.00 am to 5.00 pm

### 100 % product availability and dispatch service

With KERN you can be sure that you will have immediate access to the products you need – provided that they are in stock. Our 24-hour dispatch service will send your products immediately. Ordered today, on their way tomorrow!

### Warranty

We offer you as the customer up to 3 years warranty on all products in our entire range, as an option the warranty can be extended for a small fee. Because our products deliver on their promises!

### Customer service

Our customer service is personally available by telephone, e-mail or video call. We speak more than 7 languages and we will be happy to help with your requests.

### Trust through experience

Experience counts in terms of measuring and weighing technology and this has been the case for 180 years – for the benefit of our customers. Put us to the test!

### Accreditations/certification

- DAkkS accreditation  
DIN EN ISO/IEC 17025
- Certified QM system DIN EN ISO 9001
- Conformity assessment in accordance with NAWID 2014/31/EU
- Medical certifications DIN EN ISO 13485 and 93/42/EEC or VO (EU) 2017/745

### DAkkS-accredited calibrations

In the modern, accredited KERN calibration laboratory, we perform DAkkS-accredited calibrations for balances, test weights as well as for numerous other measuring devices. In addition we can offer calibrations on your premises.

Of course, all services are in accordance with international standards.

### Verification service

Our professional verification service offers conformity assessments and verification of balances and weights – for a feeling of security in compliance with legal requirements.

### Individual customer solutions

We are the right partner for special customer requirements. KERN offers numerous modular system solutions for your very individual weighing requirements. Please contact us!

### Service Portal

You can find aftersales support in our online service portal: Technical Support, help with questions or problems, etc.  
[www.kern-sohn.com/shop/en/Serviceportal/](http://www.kern-sohn.com/shop/en/Serviceportal/)

### Spare parts and repair service

In spite of reliable KERN quality: If you should ever need to make a complaint about our products, we will help you quickly, flexibly and in an unbureaucratic manner.

### No storage costs

You have no storage costs – we maintain the storage. Direct dispatch of ordered goods to your customer is available, invoice will be issued to you (third party business).

### Still got questions?

You can find all KERN Service Hotlines on the inside flap

# KERN Pictograms

**External adjustment**  
Quick setting up of the balance's accuracy with external adjusting weight

**Memory**  
Device memory capacity, e.g. for article data, measuring data, tare weights, PLU etc.

**Alibi memory**  
Secure, electronic archiving of measuring results, complying with the 2014/31/EU standard.

**Data interface RS-232**  
To connect the device to a printer, PC or other peripherals. Suitable for data transfer over large distances. Network in bus topology is possible

**Data interface RS-485**  
To connect the device to a printer, PC or other peripherals. Suitable for data transfer over large distances. Network in bus topology is possible

**KERN Universal Port (KUP)**  
Allows the connection of external KUP interface adapters, e.g. RS-232, RS-485, SB, Bluetooth, WIFI, Analogue, Ethernet etc. for the exchange of data and control commands, without installation effort

**USB data interface**  
To connect the device to a printer, PC or other peripherals

**Bluetooth\* data interface**  
To transfer data to a printer, PC or other peripherals

**WIFI data interface**  
To transfer data to a printer, PC or other peripherals

**Control outputs (optocoupler, digital I/O)**  
To connect relays, signal lamps, valves, etc.

**Analogue interface**  
To connect a suitable peripheral device for analogue processing of the measurements

**Statistics**  
Using the saved values, the device calculates statistical data, such as average value, standard deviation etc.

**PC Software**  
To transfer the measurements from the device to a PC

**KERN Communication Protocol (KCP)**  
A standardized interface command set for KERN balances and other instruments, which allows retrieving and controlling all relevant parameters and functions of the device. KERN devices featuring KCP are thus easily integrated with computers, industrial controllers and other digital systems

**GLP/ISO log internal**  
The measuring device generates a GLP-compliant printout, independent of a printer connection

**Piece counting**  
Reference quantities selectable. Display can be switched from piece to weight

**Totalising function**  
The weights of similar items can be added together and the total can be printed out

**Net-Total**  
The weights of the recipe ingredients can be added together and the total weight of the recipe can be printed out

**Units**  
Can be switched to e.g. nonmetric units. Please refer to website for more details

**Measuring with tolerance range** (Check weighing)  
Upper and lower limiting can be programmed individually, e.g. for sorting and dosing. The process is supported by an audible or visual signal, see the relevant model

**ZERO**  
Resets the display to "0"

**Hold function**  
When patients do not stand, sit or lie completely still, a stable weight is calculated using an average weight

**Protection against dust and water splashes IPxx**  
The type of protection is shown in the pictogram

**Suspended weighing**  
Load support with hook on the underside of the balance

**Battery operation**  
Ready for battery operation. The battery type is specified for each device

**Rechargeable battery pack**  
Rechargeable set

**Universal plug-in power supply**  
With universal input and optional input socket adapters for EU, CH, GB, US, AUS

**Plug-in power supply**  
230V/50Hz in standard version for EU. On request GB, AUS or US version available

**Integrated power supply unit**  
Integrated in balance. 230V/50Hz standard EU. More standards e.g. GB, AUS or US on request

**Weighing principle Strain gauges**  
Electrical resistor on an elastic deforming body

**Peak hold function**  
Capturing a peak value within a measuring process

**Push and Pull**  
The measuring device can capture tension and compression forces

**Integrated scale**  
In the eyepiece

**360° rotatable microscope head**

**Monocular Microscope**  
For the inspection with one eye

**Binocular Microscope**  
For the inspection with both eyes

**Trinocular Microscope**  
For the inspection with both eyes and the additional option for the connection of a camera

**Abbe Condenser**  
With high numerical aperture for the concentration and the focusing of light

**Halogen illumination**  
For pictures bright and rich in contrast

**LED illumination**  
Cold, energy-saving and especially long-life illumination

**Fluorescence illumination**  
Either with a 100 W high-pressure vapour lamp or a 5 W LED fluorescent unit

**Phase contrast unit**  
For a higher contrast

**Darkfield condenser/unit**  
For a higher contrast due to indirect illumination

**Polarising unit**  
To polarise the light

**Infinity system**  
Infinity corrected optical system

**Automatic temperature compensation**  
For measurements between 10 °C and 30 °C

**Conformity assessment**  
The time required for conformity assessment is 3 working days

**Package shipment**  
The time required for internal shipping preparations is shown in days in the pictogram

**Pallet shipment**  
The time required for internal shipping preparations is shown in days in the pictogram

KERN IoT-Line balances — smart weighing  
solutions for the digital future

# COMMITMENT TO QUALITY AT AN INTERNATIONAL LEVEL

Partners with experience and competence are an essential factor for process-oriented processes in professional weighing and measuring technology. With KERN you have a service partner by your side who has a state-of-the-art test service with an accredited calibration laboratory. Our colleagues are available both for technical questions and also individual solutions and will be glad to help you.

The following accreditations and certificates represent our commitment to quality: Certified QM system DIN EN ISO 9001, DAkkS Accreditation DIN EN ISO/IEC 17025, conformity evaluation in accordance with NAWID: 2014/31/EU, Medical certifications DIN EN ISO 13485 and 93/42/EEC.

You can also find further information online, please see [www.kern-lab.com](http://www.kern-lab.com)

The logo used is a registered trademark of Deutsche Akkreditierungsstelle (DAkkS).

# NEW IN → 2026

Discover our innovative new products and trusted classics that will make your everyday medical practice even more effective and safer. Let yourself be inspired and impressed!

NEW

## For animal-perfect precision: → Animal Scale KERN EOS-A

The new wireless animal scale makes weighing dogs, cats and other pets safe, stress-free and hygienic. State-of-the-art functions and easy handling make the scale perfect for everyday use at veterinary practices.

For details, see *Professional Care & Home Care*

NEW

## Maximum efficiency meets convenience:

### → Chair Scale KERN MCF

The WIFI-enabled chair scale combines mobility, digital data recording and ergonomic design – perfect for clinics, medical practices and nursing homes. Thanks to smart functions such as hold and BMI determination, weighing is a safe and stress-free process, even for patients with restricted mobility.

For details, see *Professional Care & Home Care*

NEW

## Big precision for the smallest:

### → Baby Scale KERN MBF

Versatile, practical, well-designed: The 2-in-1 baby scale with removable tray can be converted into a personal floor scale in no time at all. With its parent-child function, large tray and smart features such as the difference and hold functions, it ensures comfortable and safe weighing – from birth to early childhood.

For details, see *Professional Care & Home Care*

# APPROVED MEDICAL DEVICES

**Medical personal scales** are understood to be all non-automatic scales that are intended to be used to determine the body weight in medical applications (e.g. patient, baby and chair scales, verified according to class). These scales are regulated by European Directive 2014/31/EU.

Medical personal scales are also governed by the regulations for medical devices that are placed on the market in accordance with European Directive 93/42/EEC.

All models in the Approved Medical Devices category are balances which require verification and which can be used in medical applications.

## **Approved Medical Devices – Types of scales for medical applications that require mandatory verification:**

This includes all balances which are used for determining body weight in medical applications. Determining weight is used for prognosis, diagnosis, prevention, monitoring, treatment or alleviation of illnesses.

Verified medical personal scales with a maximum resolution of 3000 digits are classified as Verification Class III (see type plate).

Any balance which is going to be used in medical applications must be registered with the metrological authority within six weeks of commissioning in accordance with § 32 MessEG (Weights and Measures Act).

The requirements for re-verification are based on national regulations. In Germany, for example, this is the Verification Ordinance. The operator of the scale is obliged to ensure that the national requirements are met and that the conformity assessment markings remain intact.

KERN & SOHN GmbH does not accept responsibility for this.

## When every centimetre counts – mechanical height rods approved as a medical device for professional use in medical diagnostics

Discover more details and matching accessories online!

## Features

- Verification class III (verification is optional)
- Approved as a medical device according to regulation (EU) 2017/745
- The large tray, with its optimal ergonomic curvature, is ideal for the safe weighing of babies
- **1** Special function for neonatology centres: Difference function for calculating the weight gain before and after feeding
- Robust ABS plastic. Easy and hygienic cleaning
- Secure and non-slip positioning with rubber feet
- Hold function: While weighing patients that are unable to lie still, a mean average weight value is determined
- KERN MBC: Protective working cover included with delivery
- KERN MBC-E: Identical in construction to KERN MBC but without mains adapter, especially suitable for mobile use, e.g. for midwives
- **2** Option: Mechanical height rod to fix to the scale, measuring range 10 cm – 80 cm, increments of 1 mm, see internet
- **3** Option: Carrying case for mobile use, only for models without height rod, see internet

## Technical data

- Backlit LCD display, digit height 25 mm
- Dimensions of tray W×D 600×276 mm
- Overall dimensions W×D×H 320×410×70 mm
- Overall dimensions incl. optional height rod W×D×H 600×410×112 mm
- KERN MBC: Battery operation possible, 6×1.5 V AA not included, operating time up to 20 h
- KERN MBC-E: Batteries included, 6×1.5 V AA, operating time up to 20 h
- Net weight approx. 4,6 kg

\*Within the EU, official verification (conformity assessment in accordance with NAWI 2014/31/EU) is mandatory by law for scales that are intended for use as a medical device. Please order this where you state the location of installation and postcode.

**Compact baby scale with special Safe-Guard tray and approval for professional mobile or stationary medical use in medical diagnostics, verification optional**

Discover more details and matching accessories online!

Features

- Verification class III (verification is optional)
- Approved as a medical device according to regulation (EU) 2017/745
- Modern design
- **1** Safe-Guard tray: the special, particularly recessed tray with raised side bolsters offers optimum conditions for the safe weighing of babies
- Large, insensitive plastic tray, without corners and edges, therefore particularly hygienic and easy to clean
- Lightweight, compact design, therefore easy to transport and store
- Secure and non-slip positioning with height-adjustable rubber feet
- Easy to use
- Hold function: While weighing patients that are unable to lie still, a mean average weight value is determined
- Integrated AUTO-OFF function to preserve the batteries
- **2** Option: Mechanical height rod to fix to the scale, measuring range 30 cm – 80 cm, increments of 0,1 cm, see internet

Technical data

- LCD display, digit height 25 mm
- Dimensions of tray W×D 600×260 mm
- Overall dimensions W×D×H 600×360×141 mm
- Batteries included, 6×1.5 V AA, operating time up to 20 h (up to 50 h without using WiFi)
- Net weight approx. 4,6 kg

\*Within the EU, official verification (conformity assessment in accordance with NAWI 2014/31/EU) is mandatory by law for scales that are intended for use as a medical device. Please order this where you state the location of installation and postcode.

KERN MPC 250K100M

KERN MPC 300K-ILM

Discover more details and matching accessories online!

## Features

- Verification class III (verification is optional)
- Approved as a medical device according to regulation (EU) 2017/745
- The bestseller for doctor's surgeries, chemists and hospitals
- Robust design for daily use in a professional environment
- Easy and hygienic cleaning
- Secure and non-slip positioning with height-adjustable rubber feet
- Level indicator to level the balance precisely
- KERN MPC 300K-1LM: Version with [Max] = 300 kg and larger weighing plate
- **1** Sturdy handle for easy transportation of the scale
- **2** Flexible positioning of display device. Wall mount for display device standard
- **3** Large platform with non-slip and wear-resistant surface made of plastic, to provide a secure footing for patients
- High resolution readability: readability [d] can be increased by one decimal place for 5 sec. by the touch of a key
- BMI function to determine underweight/normal weight/surplus weight
- Hold function: While weighing patients that are unable to stand still, a mean average weight value is determined

- Parent-child function: the parent's weight is measured, and the scale is reset to zero via the button. Subsequently, the parent and baby are weighed together. The weight of the child will then show on the display
- GLP/ISO report, printout of weight value, BMI etc. with date and time  
FLP/GMP-compliant print form in DE, EN, FR, only in combination with RS-232 interface cable KERN CFS-A01 + MPC-A01 and printer KERN YKB-01N
- Battery- or mains-powered, rechargeable battery operation optional
- Protective working cover included with delivery

## Technical data

- Large backlit LCD display, digit height 25 mm
- Dimensions of display device W×D×H 200×130×60 mm
- Cable length of display device approx. 1,8 m
- Battery operation possible, 6×1.5 V AA not included, operating time up to 20 h
- Mains adapter external, standard

\*Within the EU, official verification (conformity assessment in accordance with NAWI 2014/31/EU) is mandatory by law for scales that are intended for use as a medical device. Please order this where you state the location of installation and postcode.

with approval for professional medical use in medical  
diagnostics, verification optional**

KERN MPE-HM

KERN MPE-PM

Discover more details and matching accessories online!

## Features

- Verification class III (verification is optional)
- Approved as a medical device according to regulation (EU) 2017/745
- **1** Practical second display on the back of the scale, which makes it easy for both the patient and the medical staff to read the weight
- **2** The MPE-HM model has an elegant height rod integrated into the column, which can be pulled out for use and has a sturdy plastic head rest and a measuring range from 90 – 205 cm
- Robust design with ergonomically optimised shape
- Secure and non-slip positioning with height-adjustable rubber feet
- Level indicator to level the balance precisely
- Large platform with non-slip and wear-resistant surface made of plastic, to provide a secure footing for patients
- Hold function: While weighing patients that are unable to stand still, a mean average weight value is determined

- Parent-child function: the parent's weight is measured, and the scale is reset to zero via the button. Subsequently, the parent and baby are weighed together. The weight of the child will then show on the display
- BMI function to determine underweight/normal weight/surplus weight
- High resolution readability: readability [d] can be increased by one decimal place for 5 sec. by the touch of a key
- Data interface RS-232 as standard
- **3** Easy to transport thanks to the two integrated transport wheels
- Battery- or mains-powered, rechargeable battery operation optional
- Protective working cover included with delivery
- KERN MPE-E: Identical in construction to the KERN MPE. Supplied without mains adapter, but with batteries, which makes the price attractive

## Technical data

- Large backlit LCD display, digit height 25 mm
- Weighing platform dimensions W×D×H 365×360×80 mm
- Overall dimensions W×D×H  
KERN MPE-PM: 365×570×1030 mm  
KERN MPE-HM: 365×570×2134 mm, with extracted height rod
- Net weight approx. 12 kg

## KERN MPE

- Battery operation possible, 6×1.5 V AA not included, operating time up to 20 h
- Mains adapter external, standard

## KERN MPE-E

- Batteries included, 6×1.5 V AA, operating time up to 20 h

\*Within the EU, official verification (conformity assessment in accordance with NAWI 2014/31/EU) is mandatory by law for scales that are intended for use as a medical device. Please order this where you state the location of installation and postcode.

# DIGITAL PRECISION THAT CONNECTS

Medical scales from the KERN Premium Line streamline work processes, prevent transmission errors and enable a rapid transition to a networked practice or clinic – it's as simple as switching on the scales

## Networked weighing is indispensable today

Every weight measurement is a basis for medical decision-making: Dosages are adjusted and nutritional plans drawn up. Without seamless data transfer, there is a risk of media discontinuity – and therefore typing errors, missing time stamps or delays in treatment. Networked scales close this gap and create a continuous flow of information from patient contact right through to the hospital archive.

## Play it safe with connectivity and a digital workflow

- **Safe treatments:**  
Real-time data provides the basis for quick and precise adjustments to medication and nutrition
- **Legal conformity:**  
Automatic storage with time stamp guarantees complete documentation
- **Process speed:**  
The digital workflow saves valuable time with every measurement – paying off multiple times during each visit
- **Data quality:**  
Error-free data thanks to automatic transmission – fewer queries, more time for patients and a noticeably higher level of patient satisfaction

## Digitalisation begins with the first measurement

The integrated WiFi module enables direct and secure transfer of weight data to existing EMR/EHR systems – eliminating the need for paperwork and manual typing. The modular KERN Universal Port (KUP) offers maximum interface flexibility: USB, Bluetooth, Ethernet adapter or RS-232 can be connected without recalibration. This keeps your infrastructure open for future process chains and integrations – from individual workstations right through to networked complete solutions.

## The most important features at a glance

- **Integrated WiFi**  
Measurements are transferred to the digital patient file without data loss
- **KUP interface**  
Free choice of four adapter types – no need to recalibrate the scale
- **Dual display**  
Simultaneous display for patient and specialist personnel (only for MPN 200K-1PM & MPN 200K-1HM)
- **Hold function**  
Stable weight value using an average weight procedure for restless patients
- **Parent-child function**  
Quick weight determination of the child by taring the parent who is also weighed
- **High-resolution mode**  
Temporarily finer measurements for research and nutrition
- **Alibi memory**  
Legally compliant archiving of date, time, ID, weight

## Models of the KERN Premium Line

### Personal Floor Scale MPN

for wireless transmission of weighing data

**Baby scale MBA**  
with Safe-Guard tray

### Chair scale MCN

with WiFi interface and BMI function

**Wheelchair platform scale MWN**  
with hold function

# DIGITAL WEIGHT RECORDING

Cleverly documented, burden eased

## In medical practices Weigh once, full documentation – completely automatically.

A patient's body weight is transferred directly to their digital file when they are weighed. No transposed figures, no manual data capture – instead more time for conversations, shorter waiting times and a smooth practice workflow.

**This keeps the focus where it belongs: on the people.**

## In hospitals Every second counts here – and every bit of information has to be right.

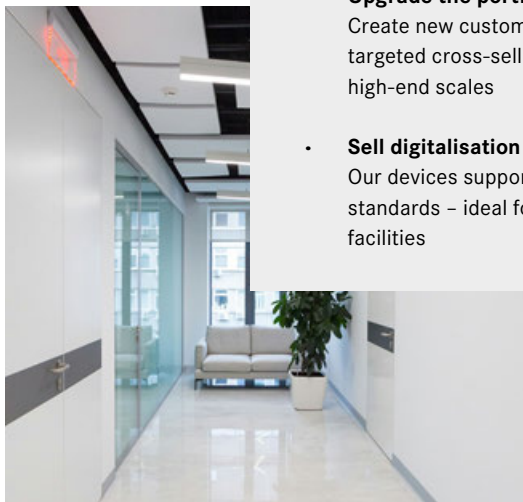

After identification, the patient's weight is automatically recorded along with the time stamp, user and device ID. This saves valuable time, relieves the burden on medical staff and ensures seamless, audit-proof documentation.

**From admission to mobile checkups: The data capture adapts flexibly to everyday clinical routines – it's secure, fast and traceable.**

### Create added value, increase revenue

- **Upgrade the portfolio**  
Create new customer opportunities and utilise targeted cross-selling potential with networkable high-end scales
- **Sell digitalisation**  
Our devices support common protocols and IoT standards – ideal for modern, digital healthcare facilities
- **Increase service revenue**  
Additional revenue from accessories such as batteries, storage modules, adapters or software licences
- **Use targeted brand strengths**  
Benefit from over 180 years of KERN & SOHN, ISO 9001/13485 certification and – depending on the model – accredited calibration or conformity assessment

→ **Discover our KERN Premium Line  
– for the highest standards**

**Professional integratable personal scales for wireless transfer of weighing data to the EMR or EHR systems – also for overweight patients in the obese category**

KERN MPN-M

KERN MPN-LM

Discover more details and matching accessories online!

### Features

- Verification class III (verification is optional)
- Approved as a medical device according to regulation (EU) 2017/745
- Thanks to the integrated WiFi interface, this model is suited for wireless transfer of weights directly into the digital patient records.  
By doing this, any documentation or transfer errors which occur during manual data transfer are eliminated. Thanks to this technology, this model can be integrated into existing or future EMR and EHR systems
- KERN Universal Port (KUP): permits the connection of an external KUP interface adapter, such as, for example, RS-232, USB, Bluetooth, WiFi or Ethernet, for the exchange of data and control commands, without any installation outlay
- KERN MPN 300K-1LM: Version with [Max] = 300 kg and larger weighing plate
- Ideally suited for hospitals, clinics and doctors' surgeries
- Robust design for daily use in a professional environment
- Easy and hygienic cleaning
- Secure and non-slip positioning with height-adjustable rubber feet

- **1** Level indicator to level the balance precisely
- KERN MPN 300K-1LM: Sturdy handle for easy transportation of the scale
- **2** Flexible positioning of display device. Wall mount for display device standard
- Large platform with non-slip and wear-resistant surface made of plastic, to provide a secure footing for patients
- Hold function: While weighing patients that are unable to stand still, a mean average weight value is determined
- Parent-child function: the parent's weight is measured, and the scale is reset to zero via the button. Subsequently, the parent and baby are weighed together. The weight of the child will then show on the display
- BMI function to determine underweight/normal weight/surplus weight
- High resolution readability: readability [d] can be increased by one decimal place for 5 sec. by the touch of a key
- Battery- or mains-powered, rechargeable battery operation optional

### Technical data

- Large LCD display, digit height 25 mm
- Dimensions of display device W×D×H 210×54×100 mm
- Cable length of display device approx. 1,8 m
- Battery operation possible, 6×1.5 V AA not included, operating time up to 20 h
- Mains adapter external, standard

\*Within the EU, official verification (conformity assessment in accordance with NAWI 2014/31/EU) is mandatory by law for scales that are intended for use as a medical device. Please order this where you state the location of installation and postcode.

**Ergonomically optimised chair scale – with approval for professional medical use in medical diagnostics, verification optional**

Discover more details and matching accessories online!

Features

- Verification class III (verification is optional)
- Approved as a medical device according to regulation (EU) 2017/745
- This chair scale is the ideal measuring instrument for retirement homes, rehabilitation centres and clinics with lots of patients, and can weigh overweight people
- **1** Mobile version with two steerable rollers and particularly convenient locking brakes at the rear
- With its four wheels, this chair scale provides maximum mobility in bringing the scale to the patient. This ensures more efficient use of time for the clinic staff and greater safety for the patients who can be weighed in their familiar environment
- The rollers, with their large diameter, make it easier to get over door thresholds, edges and across the gaps into elevators
- For fragile patients, the extra wide, comfortable, ergonomically-optimised seat offers safe, secure seating during weighing
- Because of the clearly contrasting black colour of the seating surface, footrests and armrests ideally suitable for dementia patients

- **2** Two foldable armrests and footrests make transfers into the chair easier. Ideal for overweight patients or barrier-free use, e.g. for transfers from a bed to the scale
- **3** Ergonomically positioned carrying handles
- Hold function: While weighing patients that are unable to sit still, a mean average weight value is determined
- BMI function to determine underweight/normal weight/surplus weight
- High resolution readability: readability [d] can be increased by one decimal place for 5 sec. by the touch of a key
- Protective working cover included with delivery
- Option: Practical mains adapter pouch to store the mains adapter which is supplied as standard. Fitting option using two Velcro fasteners, see internet

Technical data

- **3** LCD display, digit height 25 mm
- Dimensions of display device W×D×H 200×130×60 mm
- Dimensions of seating surface W×D 390×360 mm
- Overall dimensions W×D×H 1000×640×950 mm
- Rechargeable battery pack integrated, as standard, operating time up to 40 h without backlight, charging time approx. 12 h
- Battery operation possible, 6×1.5 V AA not included, operating time up to 20 h
- **4** External mains adapter as standard, with strain-relief and disconnecter plug to protect the power supply components
- Net weight approx. 24 kg

\*Within the EU, official verification (conformity assessment in accordance with NAWI 2014/31/EU) is mandatory by law for scales that are intended for use as a medical device. Please order this where you state the location of installation and postcode.

KERN MWA 300K-1PM

KERN MWA 300K-1M

**4 ▲ KERN MWA 300K-1M + MWA-A04:**

With the two practical handrails of the integrated folding patient seat, you can easily convert the wheelchair platform scale into a multi-functional scale. This way patients can be weighed standing up, with support from the handrail or in a comfortable seated position. If you fold the patient seat up, then a wheelchair can be pushed or driven onto the scale. The strut rod included with delivery ensures a high level of stability and torsional rigidity. The drive-through protection which is also fitted as standard for the front wheels of the wheelchair gives an extra level of safety. Please order when ordering your balance, see internet

**3 ◀ KERN MWA-A02:**  
Handrail, without column, cannot be folded, for self-assembly on the KERN MWA 300K-1M wheelchair platform scale or MWA 300K-1PM. Converts the wheelchair platform scale into a multi-functional scale. Allows weighing when standing up, with support or in the wheelchair, see internet

Discover more details and matching accessories online!

- Features**
- Verification class III (verification is optional)
  - Approved as a medical device according to regulation (EU) 2017/745
  - Especially suitable for weighing patients in wheelchairs because of the low-profile platform which can be approached from either side
  - **1** The large steel weighing plate also makes it ideal for weighing obese patients
  - Level indicator to level the balance precisely
  - Hold function: While weighing patients that are unable to sit or stand still, a mean average weight value is determined
  - KERN MWA 300K-1PM: Wheelchair platform scale with practical handrail incl. column for easy, ergonomic mounting of the display device. The handrail offers patients that extra level of safety when driving or stepping onto the weighing platform

- **2** Both access ramps and the handrail can be folded up quickly and easily, e.g. for transportation
- BMI function to determine underweight/normal weight/surplus weight
- Battery- or mains-powered, rechargeable battery operation optional
- High resolution readability: readability [d] can be increased by one decimal place for 5 sec. by the touch of a key
- GLP/ISO report, printout of weight value, BMI etc. with date and time. FLP/GMP-compliant print form in DE, EN, FR, only in combination with RS-232 interface cable KERN CFS-A01 and printer KERN YKB-01N
- Protective working cover included with delivery

### Features

- Verification class III (verification is optional)
- Approved as a medical device according to regulation (EU) 2017/745
- Thanks to the integrated WiFi interface, this model is suited for wireless transfer of weights directly into the digital patient records. By doing this, any documentation or transfer errors which occur during manual data transfer are eliminated. Thanks to this technology, this model can be integrated into existing or future EMR and EHR systems
- KERN Universal Port (KUP): permits the connection of an external KUP interface adapter, such as, for example, RS-232, USB, Bluetooth, WiFi or Ethernet, for the exchange of data and control commands, without any installation outlay
- Especially suitable for weighing patients in wheelchairs because of the low-profile platform which can be approached from either side
- KERN MWN: With the practical KERN MWN-A02 handrail set, the wheelchair platform scale KERN MWN can be converted quickly and easily into a multi-function scale. In this way patients can be weighed standing up on their own, using the support of the handrail or in a wheelchair.

- For a more ergonomic system the display device can be fitted directly onto the handrail
- KERN MWN-L: Due to its large dimensions and large weighing capacity, it is especially suitable for weighing immobile patients on stretchers or wheelchairs
- The large steel weighing plate also makes it ideal for weighing obese patients
- Secure and non-slip positioning with height-adjustable rubber feet
- Level indicator to level the balance precisely
- Hold function: While weighing patients that are unable to stand still, a mean average weight value is determined
- BMI function to determine underweight/normal weight/surplus weight
- **1** Wall mount for display device, standard
- **2** The scale can be easily transported using the handle and two rollers and does not require much storage space
- Display device with two magnets on the back, ideal to fix it to metallic surfaces, e.g. to the weighing plate
- High resolution readability: readability [d] can be increased by one decimal place for 5 sec. by the touch of a key
- Battery- or mains-powered, rechargeable battery operation optional
- Protective working cover included with delivery

### Technical data

- Large LCD display, digit height 25 mm

- Verification class III (verification is optional)
- Approved as a medical device according to regulation (EU) 2017/745
- Ideal for care homes, centres for geriatric medicine, internal medicine and many more
- **1** Practical second display on the back of the scale, which makes it easy for both the patient and the medical staff to read the weight
- Large surface, for the patient to have the most secure footing, hygienic and easy to clean
- Particularly easy access to the platform through its low height of just 30 mm
- Level indicator to level the balance precisely
- Hold function: While weighing patients that are unable to sit or stand still, a mean average weight value is determined
- **2** The sturdy support structure helps fragile and weak patients to stand safely and, at the same time, allows a precise determination of the patients' weight
- BMI function to determine underweight/normal weight/surplus weight
- Battery- or mains-powered, rechargeable battery operation optional
- Protective working cover included with delivery

Technical data

- Large backlit LCD display, digit height 25 mm
- Dimensions of display device W×D×H 200×55×128 mm
- Dimensions weighing surface W×D 600×600 mm
- Weighing platform dimensions 780×680×68 mm
- Overall dimensions W×D×H 780×680×1100 mm
- Battery operation possible, 6×1.5 V AA not included, operating time up to 20 h
- Mains adapter external, standard
- Net weight approx. 42 kg

\*Within the EU, official verification (conformity assessment in accordance with NAWI 2014/31/EU) is mandatory by law for scales that are intended for use as a medical device. Please order this where you state the location of installation and postcode.

# PROFESSIONAL & HOME CARE

A **Professional Care balance** from KERN does not have approval in accordance with the Medical Device Directive and also does not have approval in accordance with the European Directive for non-automatic weighing instruments.

If the balance is not going to be used in medical applications, these approvals are not legally required. I.e. Professional Care balances are not verified and can also not be verified. This is a significant difference when compared with Approved Medical Device balances from KERN.

Professional Care products from KERN can be used anywhere, where the measurement is not used to determine medical actions. This applies, for example, to the areas of pathology, baby scales for midwives, personal scales and baby scales in pharmacies or weighing for self-monitoring, e.g. in sport studios.

**A mandatory verification is not required for the following intended uses:**

- Body weight scales in pathology (not a medical application according to § 7b Paragraph 2 No. 4 of the Verification Ordinance)
- Personal and baby scales (the latter can usually be borrowed in pharmacies)
- Baby scales for midwives
- Personal scales during blood collection for the preparation of blood products

(Information from the Verification Office: Scales in medical applications dated 19.04.2013)

## Convenient circumference measuring tape with practical pull-out mechanism

### Features

- Continuous pull-out measuring tape for precise measurement e.g. around the body
- Ideal to determine the WHR (Waist-to-Hip-Ratio), which can give information about the distribution of the body's fat deposits using an indirect determination of abdominal fat
- With integrated feed mechanism
- The easiest handling:
  - Pull out the measuring tape
  - Hang it in the recess provided for this
  - Operate the feed mechanism
  - Read measurement value with millimetre precision

### Technical data

- Measuring tape length 205 cm (80 inch)

**Note:** The model with the suffix -S05 is delivered in a set of 5 units. i.e. the price given in the table refers to 5 items

Multifunctional baby and toddler scales with parent-child function

Features

- **1** 2-in-1 function: Combination scales with removable baby weighing tray, can be used as baby scales and personal scales up to 100 kg
- Large, ergonomically optimised tray for safe weighing of neonates
- Robust plastic tray
- Easy and hygienic cleaning
- Parent-child function: One parent weighs themselves alone first, then together with the child. The child's weight is displayed automatically
- Difference function for calculating the weight gain before and after feeding
- Hold function: If people are lying or standing unsteadily, an average is taken to determine a stable weight value
- Automatic display rotation: The display rotates from a weight of 20 kg for optimum readability when used as a personal scale.
- Touch-sensitive touch buttons for easy handling
- Integrated AUTO-OFF function to preserve the batteries
- Weight displayed in kg or lb

Technical data

- LCD display, digit height 20 mm
- Dimensions of tray W×D 600×295 mm
- Weighing platform dimensions without baby weighing tray, W×D×H 230×230×40 mm
- Overall dimensions W×D×H 600×354×91,5 mm
- Batteries included, 3×1,5V AAA, operating time up to 51 h
- Net weight approx. 1,6 kg

Main scope of applications

- Private households
- Chemists

Design body analysis scale to determine body weight, body fat, body fluid, muscle mass, proportion of bone, BMI and metabolic rate/metabolic rate when exercising

Features

- Used to determine body fat, body water, muscle mass with an accuracy of 0.1 % as well as the body weight and bone mass in 0.1 kg increments
- Display showing the calorie requirements for maintaining the current body weight depending on the level of activity and sex
- Sturdy glass weighing plate with four large contact surfaces for maximum precision
- Easy and hygienic cleaning
- Particularly flat design facilitates access
- Secure and non-slip positioning with rubber feet
- Easy to operate: simply tap on it – stand on it – read the weight
- Memory for up to 10 people (gender, age, height, level of activity)
- Integrated AUTO-OFF function to preserve the batteries
- Weight displayed in kg or lb
- 1 Large high-contrasted display that is easy to read
- 2 Delivered in single design packaging

Technical data

- LCD display, digit height 35 mm
- Overall dimensions W×D×H 300×300×25 mm

Personal scale with particularly large, flat weighing plate to make it easier to step on and give maximum safety

Features

- This personal scale is the ideal measuring instrument for elderly care, paramedics or private sector
- Very large weighing plate
- Easy and hygienic cleaning
- **1** The scale can be easily transported using a handle and does not require much storage space
- **2** Very large platform with non-slip and wear-resistant plastic-surface
- Particularly flat design facilitates access
- Easy to operate: simply tap on it – stand on it – read the weight
- Integrated AUTO-OFF function to preserve the batteries
- Weight displayed in kg or lb
- Large display that is easy to read
- Delivered in single design packaging

Technical data

Personal scale with column for convenient, ergonomically-optimised operation

Features

- This personal scale is the ideal measuring instrument for elderly care, paramedics, fitness clubs or in the private sector and can weigh overweight people up to 250 kg
- KERN MPL: BMI function to determine underweight/normal weight/surplus weight
- KERN MPL: Tare function to zero the balance
- Weight displayed in kg or lb
- **1** Particularly flat design facilitates access
- Sturdy glass weighing plate for secure, comfortable standing position
- Easy and hygienic cleaning
- **2** Large display that is easy to read
- **2** The column, which is firmly fixed to the scale, makes it easy to operate the scale as well as to read the weighing results even under poor lighting conditions
- Easy to operate:  
simply tap on it – stand on it – read the weight
- Integrated AUTO-OFF function to preserve the batteries
- **3** Delivered in design packaging

Personal floor scale with BMI function

Features

- Sturdy steel weighing plate with a non-slip and wear-resistant surface
- Easy and hygienic cleaning
- Secure and non-slip positioning with rubber feet
- Hold function: While weighing patients that are unable to stand still, a mean average weight value is determined
- Simple and convenient 4-key operation
- BMI function to determine underweight/normal weight/surplus weight
- Wall mount for the display device, as standard, only for models without a stand
- Battery- or mains-powered
- Option:  Mechanical height rod to fix to the scale, measuring range 60 cm – 205 cm, increments of 0,1 cm, see internet

Technical data

- LCD display, digit height 25 mm
- Dimensions of display device W×D×H 210×110×50 mm

# PATIENTS AND CUSTOMERS OPTIMUM CARE

## Weight management in the care sector – with the wide variety of balances from KERN you can guarantee the very best patient care for your customers

Our KERN range guarantees high-quality patient care in care institutions and clinics. Our medical scales are available in different versions and offer high precision, the highest levels of safety and comfort for all patient groups.

With our comprehensive range of products and support, we can help you as a dealer to effectively meet the challenges of your customers in the care sector and strengthen your market position.

### → Do you need a personal consultation?

Please contact us:

Tel. +49 7433 9933-268

[jobst.kamal@kern-sohn.com](mailto:jobst.kamal@kern-sohn.com)

### KERN advantages for you as a dealer:

- **Expand your product portfolio** – with our balances you can position yourself as an all-round equipment supplier for care institutions.
- **Increase your market opportunities** – at a time when the population is ageing and the need for high-quality care is increasing, our products offer significant opportunities for growth.
- **Increase customer satisfaction** – by providing products, which simplify day-to-day nursing care and improve patient care.
- **Support and training** – we offer extensive training courses and technical support, to make sure that care institutions gain the most benefit from our products.

### The KERN range – ideal for the healthcare sector

**Precise, reliable measurements:** Precise weight data is crucial for the correct dosage of medication and for monitoring the patients' nutritional situation.

**Improved safety and comfort:** Our wheelchair and chair weighers maximise safety and stability, while handrail scales offer patients the very best support when standing.

**Supporting digitization:** Our balance models are fitted with optional interfaces which enable them to be integrated seamlessly into the systems of healthcare facilities. This makes it easier to efficiently monitor, document and manage patient data.

#### Excerpt from the KERN product range for medical devices:

##### Personal scales with and without altimeter

For routine monitoring and calculation of body mass index

##### Chair weighers

A safe and comfortable solution for weighing patients who cannot stand safely

##### Wheelchair platform scales

Simple and effortless weight measurement for patients who are dependent on a wheelchair

##### Handrail scales

To support patients who need support when standing

Mobile chair scale in ergonomically-optimised design for safe, convenient weighing

Features

- This chair scale is the ideal measuring instrument for elderly care and for paramedics, and is also suitable for overweight people with a weight
- 1 Mobile version with four steerable wheels and particularly convenient locking brakes on both rear wheels
- With its four steerable wheels, this chair scale provides maximum mobility by bringing the scale to the patient. This ensures more efficient use of time for the staff and greater safety for the patients who can be weighed in their familiar environment
- The rollers, with their large diameter, make it easier to get over door thresholds, edges and across the gaps into elevators
- For fragile patients, the comfortable, ergonomically optimised seat offers secure support during weighing
- Because of the clearly contrasting black colour of the seating surface and footrests ideally suitable for dementia patients

- 2 Two foldable armrests and footrests make transfers into the chair easier. Ideal for overweight patients or barrier-free use, e.g. for transfers from a bed to the scale
- 3 Ergonomically positioned carrying handles
- Hold function: While weighing patients that are unable to sit still, a mean average weight value is determined
- BMI function to determine underweight/normal weight/surplus weight
- Practical battery operation using standard batteries ensures a high level of flexibility and freedom from mains adapters, sockets, chargers, etc.
- High resolution readability: readability [d] can be increased by one decimal place for 5 sec. by the touch of a key
- Protective working cover included with delivery

Technical data

- Large LCD display, digit height 25 mm
- Dimensions of display device W×D×H 200×130×60 mm
- Dimensions of seating surface W×D 390×360 mm
- Overall dimensions W×D×H 625×990×985 mm
- Batteries included, 6×1.5 V AA, operating time up to 40 h

Mobile wheelchair platform scale with handles and rollers

Features

- Especially suitable for weighing patients in wheelchairs because of the low-profile platform which can be approached from either side
- **1** The large steel weighing plate also makes it ideal for weighing obese patients
- Also ideal for rapid weighing of, for example, laundry carts, container trolleys, roller containers, etc. to 600 kg
- Lightweight, compact construction for mobile use
- **2** The scale can easily be transported using the two rollers and two handles and does not require much storage space
- PRE-TARE function for deduction of a known weight, for example of a wheelchair. Memory for ten PRE-TARE values
- **3** Level indicator to level the balance precisely
- Wall mount for display device, standard
- Universal external mains adapter included with delivery
- Protective working cover included with delivery

Technical data

- Large backlit LCD display, digit height 25 mm
- Dimensions weighing surface W×D 800×800 mm
- Dimensions of display device W×D×H 235×114×51 mm
- Cable length of display device approx. 5 m
- Overall dimensions W×D×H 1100×1000×80 mm
- Optional battery operation, 4×1.5 V AA not included in scope of delivery, operating time up to 60 h
- Net weight approx. 40 kg

Hand grip dynamometer, e.g. for rehabilitation treatment after accidents

Features

- Especially suitable for use in rehabilitation centres for determining manual clamping force
- There are four measuring methods, which for example, as part of a rehabilitation program, help the medical staff to monitor the fitness of the patient's hands and carry out controlled training:
  - Real time mode: immediately shows the client's current strength
  - Peak/Max mode: shows the maximum strength of a client's grip
  - Average mode: Calculates the average strength from two grips
  - Counting mode: Counts the number of presses which exceed a previously defined strength limit
- An ideal device to determine reduced handstrength and among others a possible mortality risk of elderly persons as well as a malnutrition in case of chemotherapy or similar treatments
- Safe, comfortable use thanks to non-slip rubber grips

- Integrated AUTO-OFF function after 1 min minute to preserve the batteries
- Weight displayed in kg or lb
- KERN MAP 80K1S: Special version for children: The small handle depth allows children in particular to easily and ergonomically grip the handles
- KERN MAP 130K1: Special version for body builders: Its design and extended measuring range mean that it offers additional capacity, which can accommodate the higher fundamental force exerted by body builders
- 1 Exchangeable springs facilitate fast switching of the capacity (additional spring sets are included with delivery). The varying rigidity of the individual springs makes the hand grip dynamometer ideal for a wide variety of patient groups, e.g. children or senior citizens or in sports medicine
- 2 Stable case for safe, easy transport and for storage of the additional spring sets, standard, WxDxH 350x265x85 mm

Technical data

- LCD graphic display, digit height 12 mm
- Batteries included, CR2450, operating time up to 53 h
- Net weight approx. 0,35 kg

Force measurement for medical applications

- Features**
- Determining muscle function and force is used within many areas of medical diagnostics. Amongst others, in
    - orthopaedics for determining the function of the musculoskeletal system
    - physiotherapy for restoring motivity
    - occupational therapy for treating physical damage
  - Within sport, too, measuring muscular force development can be used alongside training

- These measurements can be supported by the SAUTER FK (alternatively SAUTER FH) force gauge when connected with the three physio sensors (AC 45, AC 46, AC 47) as shown
- These sensors to measure muscular strength have been designed in an ergonomic manner. The surface is made of soft foam rubber, which sits comfortably against the skin
- Connecting the precision measuring device with the optional stainless steel handles means that you can obtain reliable weighing results

- Technical data**
- SAUTER FK**
- Ready for use: Batteries included, 6×1.5 V AA
- SAUTER FH**
- Rechargeable battery pack integrated, as standard, operating time up to 40 h without backlight, charging time approx. 120 min

**Note:** All components must be ordered separately, see internet

# HOSPITAL NEED

## KERN scales and measuring instruments for clinics, medical practices and rehabilitation facilities

Reliable scales are not only required in direct contact with patients, but also in adjacent areas such as laboratories, research, pathology, hospital laundries, etc. a wide variety of scales are used. These scales also have to meet high requirements, such as robust, dirt-repellent stainless steel surfaces that are hygienic and easy to clean. Simple operation and clearly legible displays speed up daily work, save costs and help to avoid mistakes.

The practical dynamometers, which we offer in various designs and measuring ranges, are particularly suitable for measuring muscle forces in the context of rehabilitation measures.

Discover more details and matching accessories online!

Compact organ scale made of stainless steel, particularly well protected and hygienic to clean thanks to IP67 protection and smooth stainless steel surfaces

- Features**
- Particularly suitable to determine the specific weight of organs, tissues, etc. in pathology or in the laboratory
  - Thanks to the stainless steel design of the housing and platform with smooth surface, the scale is rust-free and easy to clean
  - Protection against dust and water splashes IP67 (only when using battery)
  - High mobility: thanks to battery operation, compact, lightweight construction, it is suitable for the use in several locations
  - Protective working cover included with delivery
  - Option: ■ Tare pan made from stainless steel, see internet

- Technical data**
- Large backlit LCD display, digit height 25 mm
  - Overall dimensions W×D×H 285×255×90 mm

Stainless steel drive-through scale with two integrated access ramps, verification optional

Features

- Robust stainless steel drive-through scale for rapid weighing of e.g. laundry carts, container trolleys, roller containers, etc.
- Low platform height and integrated access ramps on both sides facilitate access
- Weighing bridge stainless steel, extremely resistant to bending
- 4 welded stainless steel load cells, IP67 dust and spray protection
- Stainless steel display device with protection against dust and water splashes IP68
- Superior display size: digit height 48 mm, bright backlight for easy reading of weighing results, even in poor lighting conditions
- Easy and hygienic cleaning
- Suitable for the ever-increasing hygienic requirements in the medical environment

- Standardised, convenient KERN concept of operation, consistency across products in terms of design, menu structure, button functions, interface connection and interface protocol
- The exchange of data and control commands is optional using up to four interfaces to suit individual requirements: two wired connections and two wireless connections
- Available as an option with alibi memory for paperless archiving of weighing results. This also means the results of weighings with mandatory verification can be electronically evaluated and processed further
- Wall mount for display device, standard
- Option:  Stand to elevate display device, see internet

Technical data

- Large backlit LCD display, digit height 48 mm
- Dimensions weighing surface, stainless steel, W×D 1000×1000 mm (Without ramps)
- Platform height in the drive-through area: 80 mm
- Overall dimensions W×D×H 1600×1220×95 mm
- Dimensions of display device W×D×H 232×150×77,3 mm
- Cable length of display device approx. 5 m
- Net weight approx. 130 kg
- Permissible ambient temperature -10 °C/40 °C

Note: For devices that require verification (conformity assessment according to NAWI 2014/31/EU), please include the verification when placing your order.  
The initial verification is not possible after delivery. Please inform the full address of the location of use for the initial verification.  
For verified scales the weighing bridge should be fixed to the floor. Optionally, with an access ramp, a footplate pair or a pit frame

# JUST SURFACED!

Take advantage of the latest innovations in measuring and weighing technology and dive into a world of precision, quality and versatility. Discover over 5,000 high-quality products and numerous services – perfectly tailored to your professional requirements. The new KERN product catalogues 2026 are available in five languages!

## BALANCES AND TEST SERVICE

Get a full overview of the wide range from KERN, including our high-quality balances, test weights and services such as verification and calibration services.

## MEDICAL SCALES

Our medical scales cover the full array: baby scales to personal scales, chair scales and adiposity scales through to hand grip dynamometers, pharmaceutical balances and veterinary scales, we offer the complete range.

## MICROSCOPES AND REFRACTOMETERS

Discover our large range of optical instruments, such as, for example our compound, polarisation or fluorescence microscopes, or our analogue and digital refractometers.

## SAUTER MEASURING TECHNOLOGY

From force-measuring devices through to hardness measuring equipment and on to measuring cells - you can find everything you need for accurate, reliable measurements.

## TEST SERVICE BROCHURE

Detailed information on all topics pertaining to the calibration and conformity assessment of balances, test weights and measuring devices.

All catalogues and information material are available for you to download as PDF files from our website:  
[www.kern-sohn.com/shop/en/DOWNLOADS](http://www.kern-sohn.com/shop/en/DOWNLOADS)

# MICROSCOPES AND REFRACTOMETERS

KERN offers you a complete, carefully compiled range of biological microscopes, stereomicroscopes, metallurgical microscopes, polarization microscopes, particularly flexible, pre-configured stereomicroscope sets, individually configurable stereomicroscope systems as well as microscope cameras and camera software.

The main fields of application are haematology, urology, gynaecology, dermatology, pathology, microbiology and parasitology, immunology, oncology, cell and tissue culture research and breeding, veterinary medicine, etc.

The KERN high-performance microscopes are particularly suitable for viewing preparations in culture vessels (bottles, trays, microtiter

plates), translucent and thin, low-contrast, demanding preparations (e.g. living Mammalian cells, tissue, possibly also microorganisms, immunofluorescence, FISH, DAPI coloring etc.)

Furthermore, KERN offers a wide range of analogue and digital refractometers. Quickly and easily determine reliable measured values, no matter whether in the laboratory or on site, this ensures safety, consistent quality and accelerates the processes. This is what the analogue and digital refractometers from KERN stand for, and at an extremely attractive price in consistently high quality. The refractometers are mainly used in hospitals, doctors' surgeries, medical training facilities, nursing homes, sports medicine (doping control), veterinary surgeries, etc.

## Elegant, dynamic and impressive – the all-round compound microscope for schools, training and laboratories

### Features

- The OBE-12/13 range stands out through its exclusive, dynamic device, which is second to none in terms of sturdy construction and ergonomics. The clever storage compartment on the back will enable quick practical storage for your power cable. Thanks to the USB connection technology, it is also possible to supply power using an external powerbank.
- The impressive, infinitely dimmable 3W LED guarantees bright illumination of your sample
- A further highlight is the butterfly lens barrel which enables you to achieve the ideal viewing angle and is integrated as standard on all binocular and trinocular models. The height-adjustable and thereby focusable 1.25 Abbe condenser with aperture diaphragm is a further quality feature of the OBE range and guarantees the very best concentration of light

- Height adjustment of the fully-equipped mechanical stage is carried out using a coarse and fine focusing knob on both sides. The ergonomically designed coaxial drive enables you to work with the samples and move them rapidly
- A large selection of different eyepieces and objectives are available to you as accessories
- A protective dust cover, eye cups, as well as multi-lingual user instructions are included in the scope of delivery
- A C-mount adapter is required to connect a camera to the trinocular version

### Scope of application

- Training, haematology, sediment investigation, doctor's practise, veterinary

### Applications/Samples

- Translucent, thin, high-contrast, less complex samples (e.g. plant tissue, coloured cells/parasites)

### Technical data

- Finite optical system DIN
- 4-fold lens revolving unit
- OBE 121, 131: Monocular lens barrel, 30° angled
- OBE 122, 124, 132, 134: Butterfly 30° angled
- Diopter adjustment, one-sided (for binocular and trinocular models)
- Overall dimensions W×D×H 360×150×320 mm
- Net weight approx. 4,6 kg

Simple polarising unit

Discover more details and matching accessories online!

The flexible laboratory assistant with infinity optical system and fixed, pre-centred Koehler illumination

Features

- The OBL series stands out through its infinity optical unit and is therefore ideally suited for all demanding transmitted illumination applications. The robust and ergonomic stand base guarantees safe and comfortable working
- The fixed, pre-centred and focusable 1,25 Abbe condenser with aperture diaphragm and field diaphragm gives you a simplified Koehler illumination, without having to move the centre.
- The large mechanical stage and its specimen holder holds up to two samples at the same time and is quick and easy to focus using a coaxial coarse and fine focusing knob on both sides

- A large selection of eyepieces, objectives and colour filters as well as a darkfield condenser, a simple polarising unit, different phase contrast kits through to LED fluorescence units are available to you as accessories
- A protective dust cover, eye cups, as well as multi-lingual user instructions are included in the scope of delivery
- A C-mount adapter is required to connect a camera to the trinocular version

Scope of application

- Haematology, urology, gynaecology, dermatology, pathology, microbiology and parasitology, immunology, sewage treatment plants, oncology, entomology, veterinary practices, water analysis, breweries

Applications/Samples

- Translucent, thin, low-contrast, challenging samples (e.g. living mammal cells, bacteria, tissue)

Technical data

- Infinity optical system
- 4-fold lens revolving unit
- Siedentopf 30° inclined / 360° rotatable
- Diopter adjustment, one-sided
- Overall dimensions W×D×H 395×200×380 mm
- Net weight approx. 7 kg

## Professionalism and versatility united in one microscope – with Koehler illumination for demanding applications

### Features

- The OBN- series stands out because of its unbeatable and consistently high quality and its ergonomic design. The range of modular components means that the OBN series can be individually customised for the professional user.
- Depending on the application, there is a choice of models with strong, continuously dimmable 3 W LED or 20 W halogen illumination (Philips)
- In addition the microscope is available as a pre-configured phase contrast microscope, which, through the combination of a professional quintuple condenser wheel, phase contrast condenser and Infinity Plan phase contrast objectives makes it a high-quality, fully-equipped microscope for all applications related to this contrasting method
- This series has a professional Koehler illumination unit with an adjustable field diaphragm as well as a height-adjustable 1,25 Abbe condenser which can be centred and which has an adjustable aperture diaphragm.

- The extremely large mechanical stage with ergonomic, coaxial coarse and fine focusing knob on both sides enables you to adjust and focus your sample rapidly and accurately
- A wide variety of modular systems, such as, for example, a swing-out condenser, various eyepieces, objectives, colour filters, phase contrast units, a darkfield condenser, a simple polarising unit, a Butterfly Tube, through to complete fluorescence units are available to you as accessories
- KERN OBN 15: This centring eyepiece for adjusting the phase contrast, a protective dust cover, eye cups as well as multi-lingual user instructions are included in the scope of delivery
- A C-mount adapter is required to connect a camera to the trinocular version

### Scope of application

- Haematology, urology, gynaecology, dermatology, pathology, microbiology and parasitology, immunology, sewage treatment plants, oncology, entomology, veterinary practices, water analysis, breweries

### Applications/Samples

- Translucent, thin, low-contrast, challenging samples (e.g. living mammal cells, bacteria, tissue)

### Technical data

- Infinity optical system
- Quintuple nosepiece
- Siedentopf 30° inclined / 360° rotatable
- Diopter adjustment, both-sided
- Overall dimensions W×D×H 390×200×395 mm

## The inverted biological laboratory microscope – also with fluorescence

### Features

- The OCM range stands out through its design which is ergonomic, robust and extremely stable
- A powerful and continuously adjustable 30 W halogen illumination or 5 W LED illumination ensures optimum illumination in the bright field of your samples. For the models with an additional fluorescence unit, you can choose either an Osram 100 W-HBO- or an 5 W-LED epi-fluorescence unit
- A special Abbe N.A. 0.3 condenser with aperture diaphragm and large working distance of 72 mm guarantees the very best working practice in the bright field and with fluorescence applications
- As standard, the OCM range is fitted with a trinocular eyepiece tube

- The mechanical stage including specimen holder (Ø 110 mm) means that you can work quickly and effectively. Further brackets for petri dishes are included with delivery or available as accessories
- Further options such as, for example, a selection of eyepieces, objectives, specimen holders and other phase contrast units can be integrated as accessories
- A dust cover as well as user instructions are included with the delivery
- A C-mount adapter is required to connect a camera to the trinocular version

### Scope of application

- Research and breeding of cell cultures and tissue cultures

### Applications/Samples

- Particularly for viewing samples in culture vessels (flasks, petri dishes, microtitre plates), translucent, thin, low-contrast, challenging samples (e.g. living mammal cells, tissue, microorganisms if necessary, Immunofluorescence, FISH, DAPI staining etc.)

### Technical data

- Infinity optics
- Quintuple nosepiece
- Siedentopf 45° inclined
- Diopter adjustment, both-sided

## Refractive index measurement for hospitals, medical training institutions or in sports medicine

### Features

- The models in the KERN ORA range are universal, maintenance-free analogue manual refractometers
- NEW: Now with engraved serial number
- The handy and robust design allows the easy, efficient and sustainable use in everyday life
- Manually calculated conversions and errors of the user are avoided by multiple selectable scales.
- These scales are especially developed, exactly calculated and checked. They are also characterized by their thin and clear lines.
- ORA 2PA: This model is particularly suitable for the measurement of the specific gravity (sg) in urine, the quantity of serum (serumproteine) in urine (doping control among athletes), and the refractive index.
- ORA 5PB: This model is particularly suitable for the measurement of the specific gravity (sg) in urine from animals such as dogs or cats and the quantity of serum (serumproteine) in urine

- The optical system and the prism cover are made of special material which allows a low-tolerance measuring.
- All models are fitted with an eyepiece which can be adjusted easily and smoothly to different visual capacities
- The models marked with "ATC" have an automatic temperature compensation which enables accurate measurement at different ambient temperatures. For models without "ATC", the results must be adjusted according to the enclosed international temperature correction table
-  Included with the delivery:
  - Storage box
  - Calibration solution
  - Pipette
  - Screwdriver
  - Cleaning cloth

### Scope of application

- Hospitals
- Doctor's practise
- Medical training institutions
- Nursing homes
- Sports medicine (doping test)

### Technical data

- Die-cast housing of copper-aluminium alloy, chrome coated
- With ATC: Measurement temperature: 10 °C - 30 °C
- Dimensions of the box: 205×75×55 mm
- Length: 130 - 200 mm

 Also available as digital hand- or laboratory versions. We will be happy to consult you.

# VETERINARY SCALES

**Animal scales for weighing various animals such as rabbits, cats, dogs, snakes, sheep, etc.**

Electronic animal scales from KERN are the very best tool for checking animal weight. KERN animal scales stand out from the crowd because they are easy to use, have a high degree of mobility, with robust technology, a large display and ergonomic design. From scales for small animals, which are also ideal for weighing animal feed in line with a diet sheet, through to high-capacity floor scales for animals weighing up to 300 kg, right up to hanging and crane scales for mobile weighing of animals up to 1 ton, KERN's veterinary scale range offers a wide choice.

Many useful functions assist the vet, animal keeper or pet owner in their daily work with the animal. Thanks to a special animal weighing program, a steady weight will be displayed, even if the animal moves during the weighing process. You can use the practical HOLD function, which means the obtained weight will continue to be displayed even after the animal has been removed from the scale. You therefore have time to take care of the animal first.

Whether stationary in a veterinary practice, or mobile at the home of a pet owner, in enclosures or in the wild, the power supply to the KERN veterinary scales is always guaranteed thanks to mains or battery operation.

Discover more details and matching accessories online!

Practical assistant for the mobile weighing of heavy pets, animal feed etc. up to 1 ton!

Features

- Thanks to the animal weighing function, it can also be used by vets. Compact - so it can be stored in the vet's case and is ideally suited for heavy pets
- Hold function: For easy reading of the weighing result, the display can be „frozen“ in different ways. Either automatically when the weighing value remains unchanged or manually by pressing the Hold key
- Varied options for hanging the items, thanks to the hook included as standard (not with models HCB with [Max] ≥ 0.5 t)
- Peak load display (peak hold), Measuring frequency 5 Hz

KERN HCB

- [Max] ≤ 200 kg: Snap link (stainless steel) with safety catch and hook (stainless steel) as standard
-  [Max] ≥ 500 kg: Reinforced version for heavy loads. Snap link and hook not included

KERN HDB

- With practical carrying handle
- Hinged hook (steel)
- Handy and mobile

Technical data

- LCD display, digit height 12 mm
- KERN HCB: Hole diameter of load support, model with  
[Max] ≤ 200 kg: approx. 14 mm  
[Max] ≥ 500 kg: approx. 16 mm
- KERN HCB: Ready for use: Batteries included, 3×1.5 V AA, operating time up to 300 h
- KERN HDB: Ready for use: Batteries included, 2×1.5 V AAA, operating time up to 100 h

## Compact veterinary scale for diverse applications – also with XL platform

### Features

- Platform scale to weigh animals
- Weighing plate: Easy and hygienic cleaning  
KERN EOB: stainless steel  
KERN EOE: steel, lacquered
- Simple and convenient 4-key operation
- Animal weighing program: While weighing animals that continue to move during the weighing process, a mean average weight value is determined
- Integrated AUTO-OFF function to preserve the batteries
- Wall mount for display device, standard
- Universal external mains adapter included with delivery
- Protective working cover included with delivery

Cordless animal scales for flexible use in practices and clinics

- Features
- Robust platform scales for weighing larger animals such as dogs or cats
  - Wireless radio connection between platform and display device – no risk of damage to the cable, e.g. due to biting
  - Three radio channels for connecting several platforms to one display device
  - Tare activation by hand movement thanks to integrated infrared sensor – hygienic and contactless (can be deactivated)
  - Stainless steel weighing plate, easy cleaning, painted steel base
  - The low platform height facilitates access
  - **1** Non-slip rubber mat included with delivery

# Retailer Information

## Sales conditions

All prices are valid as of January 1st 2026, Subject to change without notice. Current prices at [www.kern-sohn.com](http://www.kern-sohn.com). In Europe, all prices do not include the applicable V.A.T.

### Delivery Conditions

We supply ex works Balingen, e.g. the transport costs are invoiced. With our contract logistics partners we always offer you shipping at a good rate. When shipping to islands or other more distant areas, or areas which are difficult to access, the transport costs may possibly be higher, please ask for details. Any goods supplied remain KERN's property until complete payment for the goods sold has been received.

Delivery is usually via courier service.

When you see this symbol by truck, please ask for prices.n.

### Extract from general terms and conditions

#### Court of jurisdiction/Legal domicile:

72336 Balingen, Germany;  
Commercial register N°: HRB 400865,  
AG Stuttgart; Managing director: Albert Sauter  
For the full Terms and Conditions,  
please refer to the website.  
<https://www.kern-sohn.com/shop/en/IMPRESSUM/AGB2/>

All dimensions are approximate. Technical changes in the course of further development, printing faults, price changes and product changes are likely in individual cases, due to product modifications as well as error.

### Sale or return

within 14 days of purchase. Not valid for Software and order-specific adaptations such as special productions, cable extensions, special weights, etc. or test services such as calibration, verification, etc. Depending on the time and effort involved, there may be processing and storage costs, please ask for details.

### Warranty

→ 3 years for products with list price  $\geq$  € 500.00  
→ 2 years for components as well as products with list price  $<$  € 500.00  
→ 1 year for pallet truck scales  
Does not apply to consumables such as batteries, rechargeable battery packs, etc.

Balances in areas regulated by law (► *Verification*) must comply with the commercial error limits during the period of validity for verification – these are usually double the verification permissible error limits. If this period of validity for verification expires, then reverification must be carried out. If, in order to pass the verification, it should be necessary to adjust the balance to comply with the verification permissible error limits, then this does not constitute a warranty claim.

## Service

### KERN DirectCash

The quick, secure COD procedure for protection against non-payment. With the KERN DirectCash COD system, you can safely deliver orders to end customers with unknown credit rating, with no risk of non-payment. Please request further details on this procedure.

### Hire Purchase

Financing is available using KERN hire purchase – easy and convenient. Hire Purchase gives you the option of purchasing any product from our range against a simple monthly installment. The product value is financed over the period of the agreement. On payment of the last installment, the ownership of the contract item automatically transfers from the contractor to the contractee. The Hire Purchase Agreement can – if you so choose – be set for a period of between one and five years. This package includes the transfer of items as well as the guarantee for the entire transfer period.

Compared with buying the product, KERN hire purchase offers the advantage that the initial financial investment is largely unnecessary. This is particularly relevant when purchasing a number of products, for example when refitting a laboratory, a company department or a hospital ward. In addition the monthly installments constitute a direct cost and the item does not have to be capitalised by the purchaser.

## After-Sales-Service

### Repair service

Within 1 week at our plant in Balingen, transportation costs are additional. In urgent cases, if requested by customer, a replacement device will be provided until all repairs are completed; please ask.

### Price reduction for a new device

If repair costs exceed the current value of the defective device, a new device will be offered for a discount price. This offer is valid only up to 2 years after warranty expiration.

### Spare parts service

Usually within 48 hours, transportation costs are additional.

## Marketing support

### KERN catalogues, brochures, branch prospectuses – your own personalised marketing tools

This catalogue and branch prospectuses are available free of charge. A neutral version of the catalogue, without the KERN address imprint, is also available free of charge for your marketing activities as PDF document. The KERN catalogue and branch prospectuses are available in the following languages: DE, EN, FR, IT, ES.

## Important notice

### Explosion hazard/Humidity

Our models are not suitable for rooms with a risk of explosion. Our models are also not suitable for rooms with a high level of air humidity (condensing). Please observe the applicable electrical regulations.

### Earth's gravitational force

Electronic balances are subject to location regulations due to the earth's gravitational force. If location of use is changed, reverification and recalibration of the electronic balance is needed.

## Calibration Certificate with accreditation symbol

Upon request, you will receive a Calibration Certificate with accreditation symbol (Deutsche Akkreditierungsstelle GmbH – German accreditation point), which documents the precision of your balance in detail and also serves as your proof that you monitor your checking equipment in a Quality Management System to ISO 9001.

## Accessories

Further extensive accessories for all our models can also be found in the KERN online shop [www.kern-sohn.com](http://www.kern-sohn.com)
